- Bi annual full day seminar at our Tustin, CA facility to learn all the ins and outs of Total Door
- AIA accredited Lunch & Learn Presentation

DOOR SYSTEMS FACILITY TRAINING

Total Door Retro-Fit by Door Systems

THE MOST VERSATILE DOOR FOR YOUR TOUGHEST RETRO-FIT APPLICATIONS

An integrated door system with all hardware factory installed, reducing installation time, noise and inconvenience to existing tenants

- Upgrade your existing openings to meet all local and national fire codes and ADA requirements
- Dramatically improve the look of your worn openings
- Custom sized in 1/16" increments for any opening up to 4'-2 3/16" x 10'singles or 8'-4 3/8" x 10'pairs

- Install on any existing solid frame. The Total Door full height hinge does not need hinge cut outs or reinforcements.
- Eliminate the need to replace frames and lower construction cost. We can use existing frames even if the hinges are broken.
- Give yourself some room! The low profile hardware gives you back additional space in your hallways and corridors.
- Improve security by virtue of the full height locking channel and full height hinge. Total Door eliminates vertical rods, astragals, coordinators, floor strikes or flush bolts.
