

5/17/2017

To whom it may concern,

Originally, we contact Door Systems because we were having problems with different door vendors. We had trouble with our security doors for our behavior health unit. Door Systems supplied and installed two pairs of Syntegra Integrated Doors and we have not had a problem since. Compared to other integrated door brands there is no comparison. Syntegra is the better product. I have had no problems with my Syntegra Doors, in fact they have been perfect. We will be purchasing more Syntegra Doors.

I would absolutely recommend Door Systems for future work.

Sincerely,

Matthew Bond,

Facility Director, Redlands Community Hospital
