RE: 777 Aviation Project, El Segundo

Dear Contractors,

Door Systems installed all the automatic fabric fire curtains on both sides of the clear story atrium as well as in front of all the elevators. Some of the DSI fire curtains are over 45 feet wide which is larger than any fire door I have ever worked with in my 35 years of construction experience. I am very impressed with how well the DSI curtain function and operate as well as how Door Systems performs as a company.

The fire testing went off without a hitch with the fire department, which is truly impressive. Door Systems was great to deal with, easy to communicate with, responded in less than 24 hours whenever we contacted them, and were always very accommodating.

I would recommend Door Systems to any contractor.

Sincerely,

David Therault, Site Superintendent
