

9/25/2019

To all future customers,

Door Systems supplied and installed a smoke and fire curtain that's nearly 100 feet wide in our cafeteria project at GM Financial here in Texas. This is the biggest fire door I have ever seen and required a highly skilled company to get the job done.

The curtain works great and the project went off without a hitch. Door Systems was a great company to work with. They did exactly what they said they would do, and I cherished my time working with them.

If you need a fire curtain, I highly recommend Door Systems for your project.

Yours truly,

Ed Brock, Project Superintendent
